DETAILED ACTION

Claim Rejections - 35 USC § 101

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-8 and 10-18 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

The claims are directed to a method or process for performing a computation via a mathematical algorithm to produce a mathematical result. The claims are not limited to a practical application of the mathematical algorithm because the result is not a useful, concrete and tangible result. More specifically the result is not a tangible result because it is not a real-world result.

Claims 1-8 and 10-12 are directed to a program per se. While the program contains functionally descriptive material the recording of the functionally descriptive material on some computer-readable medium, which would enable the functionality to be realized, fails to be recited.

Claim Rejections - 35 USC § 112

2. Claims 1-29 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 2193

Claim 1, line 7 is incomplete. i.e. after responsive "to" should be inserted. In claims 13, 19 and 25 "n" fails to be defined. Claim 17 is inconsistent with lines 6-8 of claims 13. The step of claim 18 fails to be clearly related to the previously recited steps.

Specification

3. The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Oath/Declaration

4. The first paragraph of the specification claims priority under 35 USC 120 but the declaration fails to reference the parent case.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David H. Malzahn whose telephone number is (571) 272-3727. The examiner can normally be reached on M-Th from 7:30 to 6:00.
